ZAID AKHALWAYA

IT SUPPORT TECHNICIAN | APPLICATION & TECHNICAL SUPPORT

Johannesburg, Gauteng | 082 316 6619 | zaidakhalwaya6@gmail.com

GitHub: theZoid9 | Supporting work: Google Drive | Website: Live Portfolio

PROFESSIONAL PROFILE

Technical support professional with experience in IT support, service coordination, administration and data capture, now expanding into software development through a current web development internship. Combines user-facing troubleshooting experience with practical knowledge of web applications, JavaScript, Python, SQL, APIs and Git. Seeking IT support, application support or junior technical support roles.

TECHNICAL SKILLS

Technical support: IT troubleshooting, end-user assistance, service coordination, documentation

Systems & data: Data capture, SQL, PostgreSQL, MongoDB

Development knowledge: JavaScript, Python, HTML, CSS, Node.js, React, REST APIs

Tools & practices: Git, Postman, Docker, debugging, testing

TECHNICAL ACHIEVEMENTS

- Combined earlier hands-on IT support and service coordination work with newer web and API development practice.
- Built a browser task manager with local persistence, recurring tasks, search and offline-capable PWA files. [code]
- Applied debugging and validation fixes to a modular JavaScript library management system and its Jest tests. [code]

EXPERIENCE

Perfect Laser Technologies | IT Support Technician / Service Controller / Administrative Assistant | 1 year

- Supported IT users and handled service-related coordination and administrative tasks.

HSC System | IT Support Technician / Data Capture | 1 year

- Provided IT support and maintained accurate data records.

Web Development Internship / Training | Current

- Developing practical software engineering skills through web application projects, debugging, testing and API development.
- Working with JavaScript, Python, React, REST APIs, version control and databases in hands-on project work.

Umuzi | Data Engineering Recruit / Web Development Recruit | 2 years

- Completed structured technical learning in data engineering and web development, with programming and problem-solving practice.

Vapsure | Outbound Sales / Data Capture | 1 year

- Handled outbound customer communication and data entry.
