ZAID AKHALWAYA

JUNIOR BACKEND DEVELOPER | PYTHON & NODE.JS

Johannesburg, Gauteng | 082 316 6619 | zaidakhalwaya6@gmail.com

GitHub: theZoid9 | Supporting work: Google Drive

PROFESSIONAL PROFILE

Junior backend developer and current web development intern with hands-on projects covering REST API design, CRUD operations, authentication and relational data modelling. Built services using Python, Django REST Framework, Flask, Node.js and Express, and practised database integration, tests and container-based workflows. Brings prior IT support and troubleshooting experience.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Frameworks & APIs: Django REST Framework, Flask, Node.js, Express, REST APIs, JWT, CRUD

Data & tooling: PostgreSQL, MongoDB, Git, Docker, OpenShift, Tekton

Testing & documentation: pytest, Postman, API documentation, Swagger / ReDoc

TECHNICAL ACHIEVEMENTS

- Implemented event reservation endpoints using Django REST Framework, PostgreSQL transactions, permissions and Docker Compose. [code]
- Developed a Django travel-planning API using accounts, bookings and itinerary models. [code]
- Practised Flask service development, automated tests and CI/CD within a DevOps capstone codebase. [code]

EXPERIENCE

Web Development Internship / Training | Current

- Developing practical software engineering skills through web application projects, debugging, testing and API development.
- Working with JavaScript, Python, React, REST APIs, version control and databases in hands-on project work.

Umuzi | Data Engineering Recruit / Web Development Recruit | 2 years

- Completed structured technical learning in data engineering and web development, with programming and problem-solving practice.

Perfect Laser Technologies | IT Support Technician / Service Controller / Administrative Assistant | 1 year

- Supported IT users and handled service-related coordination and administrative tasks.

HSC System | IT Support Technician / Data Capture | 1 year

- Provided IT support and maintained accurate data records.

EDUCATION & CREDENTIALS

Higher Certificate in Systems Engineering — PC Training & Business College

CompTIA A+ coursework — Boston City Campus

Matric (Grade 12) — Chris J Botha
